We Do LETTERHEAD PRINTING on HAMMERMILL BOND

STORM GENERAL SOUTHERN PART OF THIS STATE

The storm was general throughout southern Nevada and extended as far as Hawthorne, according to Allen Rives, who returned this afternoon from an inspection of the Lucky Boy mine. Mr. Rives, who was accompanied by George Southworth, states that it was snowing there when they left, but that it melted as fast as it fell. About 12 miles north of Tonopah the snow had accumulated and a regular blizzard was in evidence which has resulted in drifts on the highway, making travel exceptionally difficult.

The Lucky Boy mine is showing strong in mineral values, according to Mr. Rives, and in two faces on the tunnel level, two separate bodies of ore having a width of two feet are showing that will mill better than \$400 a ton. Development is resulting in new orebodies being uncovered and the future of the mine is most promising.

Chief of Police Smith Attends First Wedding

R. S. Lang, giving his residence as San Diego, and Miss Annie Harvey, of Seattle, Wash., arrived here yesterday, secured a marriage license and this morning called upon Justice Cuddy, where they were united in the holy bonds of matrimony. Chief of Police O. H. Smith, and his chief deputy, N. L. Schade, attended the couple. Immediately following the ceremony the newlyweds left for Las Vegas by auto.

RELIEF IN RIGA DISTRICTS NOT VERY PLEASANT

(By Associated Press) REZHOFF, Russia, March 11.—(By Mail)—An American who had spent four days and nights in a poultry car on a freight train held up by a Dakota blizzard or had been trapped by a snowstorm for an equal length of time in a traveling monkey cage, would have some idea of experiences sometimes encountered this winter by American relief workers and other travelers from Riga to Moscow.

In the summer, an "express" schedule, averaging about 48 hours, is maintained between Riga and the Russian capital, but in the winter when snow drifts into the cuts and zero cold makes it almost impossible to keep up steam in the leaky, wood-burning locomotives the trip runs anywhere from 70 to 100 hours, most of which are spent not in moving, but in waiting to move.

One or two "through" cars, generally without upholstery, but reasonably clean—at the start of the voyage—are operated on the bi-weekly trains. They are compartment cars, having a dozen or so little rooms with sleeping bunks for four or two persons.

On the recent trip, the average was seven persons to each four-bunk compartment in which its occupants cooked, ate and slept all the way to Moscow. There is, of course, no dining car and hot food is difficult to obtain at any of the Russian stations.

Russian cars, in the winter, are practically airtight. The only way to open a window is to break one. After a few hours, therefore, the general atmosphere resembles that of a monkey cage whose keeper forgot to clean it since the winter previous and into this is poured the smoke from pipes, cigarettos, cigars, fumes from alcoholic stoves and from sputtering candles. There are no electric lights nor oil lamps and the travelers bring their own candles.

As each traveler brings his own bedding and food for the trip, in addition to some supplies for use within Russia and his ordinary traveling luggage, the corridors and the compartments of the cars are so cluttered that the passengers have to stand edgewise to move from place to place. Fat men with large stomachs pry themselves into their compartments, and stay there.

The bunks for sleeping are six feet long and three feet wide. With seven in one compartment, three of the bunks are occupied by two persons each.

Crowding to this extent, however, is not common. When it does occur, women passengers faint, windows are broken open and the atmosphere relieved, generally about the third night out.

When The Bonanza says you printing, it means that and nothing else. We have the finest equipped job printing plant in the state.

MOANING CAVE VILLECITA IS INVESTIGATED

Underground Cavity Said to be More Enticing Than any Other in California.

(By Associated Press) ANGELS, Calaveras County, Calif., April 5.—Exploration of a long mysterious cavity in the earth—the "moaning cave of Villecita"—recently was made by three men of this county. The work, which consumed three months was accomplished by Dan Malatesta, Addison Carley and John Ellingham, who report that the cave promises to surpass any other underground cavity in California for size and beauty of formation.

Early explorers, tradition says, were afraid of the cave because of a peculiar moaning sound, whose origin is unknown, which is heard immediately upon entering.

The cave starts with a small entrance in the limestone for 15 or 20 feet, at which point it opens into a chamber large enough to hold several two-story houses.

From this chamber a drop of several hundred feet is made to another large chamber. In this second chamber a gradual descent is made to a cliff which drops off for 150 feet to a third chamber. Below the third chamber is still a fourth one which has not yet been explored. The depth of the unexplored chamber is estimated at about 80 feet. This fact was established by dropping rocks over the edge and timing them until they struck.

The explored chambers are full of stalactites and stalagmites in many shapes and forms. At one point the formation has taken on the shape of the capitol at Washington. It is claimed by those who have seen this sight that the similarity is identical. Large columns have been formed in some of the chambers, reaching from the ceiling to the floor, a distance of over 80 feet. These columns, when struck, will ring in a bell-like tone for fully a minute. Water dripping from the top of one of the chambers strikes a thin sheet of the stalactite formation, which rings with the clearness of a bell at regular intervals.

A still greater mystery was unraveled by the explorers in the third chamber, by the discovery of a large pile of human bones. These bones are larger than those found in the average man and give belief that they might belong to some prehistoric race. Added to this unsolved mystery is the question of how these bones could have reached the point where they were found when it was necessary for them to have passed over two cliffs of considerable height and a great distance apart before they could have been deposited where they were found.

KINDERGARTEN UNION MEETING ON APRIL 24TH

(By Associated Press) LOUISVILLE, Ky., April 5.—Educators of international prominence are on the program for addresses before the International kindergarten union, which convenes here April 24 for a convention lasting one week. Among these are Miss Lillian B. Poor, Boston; Miss Ella R. Boyce, Pittsburgh; Miss Edna D. Baker, Chicago; Miss Margaret A. Trace, of Cleveland, and others.

Miss Caroline W. Barbour, of Superior, Wis., will speak on the "Standardized-Minimum Course for the Kindergarten Primary Training Schools," Monday afternoon, April 24.

"Progress of the Kindergarten Movements" is the subject of an address by Miss Patty S. Hill, of the Teachers College, N. Y., to be presented Tuesday night.

Donald Robertson of Chicago, and Miss Julia Wade Abbott of the bureau of education, Washington, will deliver addresses Wednesday night.

The speakers for Thursday night are Miss Stella McCarty of Baltimore; Dr. Agnes L. Rogers of Concher College, Baltimore, on a "Curriculum of Habits"; Miss Nina C. Vandewalker of the bureau of education, Washington; Mrs. Minnie G. Allen, Louisville, and Mrs. Grace Brown of Cleveland.

NOTICE OF MEETING. The Women's Relief Corp. will meet in regular session Thursday evening, April 6, at Odd Fellows Hall. All members requested to be present. Initiation and important business.

MRS. W. R. GIBSON, President. A5-24.

PERSONAL

BERT CALDWELL left this morning for Reno.

Charles Sadlier, proprietor of the Hotel Golden at Reno, left this morning for home, after spending a time here and at Goldfield.

J. CLARENCE KIND, local manager of the Nevada Telephone-Telegraph company, accompanied by his wife, were visitors to Goldfield yesterday.

JANUARY JONES, well known mining man, and a resident of Goldfield during the early days of that camp, was an arrival from San Francisco this morning. Mr. Jones is interested in the Eden Creek Mining company, which is operating a promising property on Eden Creek.

ALLEN RIVES and GEORGE SOUTHORTH returned this afternoon from Hawthorne where they inspected the workings on the Lucky Boy mine in which they are interested with John H. Miller. It is reported that the showing on this property has made a wonderful improvement of late.

CRAZE DEVELOPS IN NAMING CHILDREN

(By Associated Press) LONDON, March 18.—(By Mail)—In the wake of the marriage of Princess Mary to Viscount Lascelles, a countrywide craze has developed for naming children and things in honor of the occasion and its principals.

From different parts of the country come reports of such names as "Royal Wedding Hill" and "Princess Mary Shaw." Innumerable Harrys, Marys, Mary Alexandras and so on figure in registrations of the past few days.

Painters and sign writers testify to a mild boom in their art owing to the many changes in signs and names of shops, bungalows, houses, houses, etc., in order to give them a "topical" touch.

Inns in all parts of the country are being named "The Princess Mary" or "The Lord Lascelles," as substitutes, according to reports, for German or other names that have survived the war.

Preparations for the coming season at seaside resorts include the labeling of bathing huts with such names as "Maryland," "Maryville," and "The Princess."

MAY DEPORT ALIENS FOR NARCOTIC SALES

(By Associated Press) WASHINGTON, April 5.—After a bitter "wet and dry" contest, the house today passed, and sent to the senate, the bill providing for deportation of aliens convicted of violation of the narcotic and prohibition enforcement acts.

WANTED TO BUY.

WANTED TO BUY—Several motors, 3 to 10 H. P.; pumps, ore buckets, rails, mine trucks, 2 and 2 1/2-inch pipe. Please give full description, lowest cash price, and where located. Arthur S. Putney, Manhattan, Nevada.

FREE EMPLOYMENT AGENCY. Owing to frequent calls for men I will maintain a FREE EMPLOYMENT office in connection with our Stage Lines. Anybody seeking employment is invited to register. Anybody seeking help is invited to call. Office in Brunswick Parlors. M21-4f L. L. MUSHETT.

HEAVY OUTPUT IS RESULTING SILVER PICK

About 550 tons of ore has come from the stope in the Silver Pick lease to date. During March the total shipments amounted to 446 tons of a gross value of \$25,775 and a gross value per ton of \$57.79. The last two carloads shipped on the last day in March had an estimated value per ton of \$95. After these two carloads had been shipped, one containing 55 tons and the other 57, there was 50 tons of ore of similar grade remaining in the bins. During February 50 and 60 tons of ore were shipped.

Among the visitors at the Silver Pick during the past few days were several prominent Tonopah operators, and like the Goldfield people, they were very enthusiastic over the new find. Ed Bevis of the Divide Extension remarked that it was in his opinion one of the finest showings he had seen in years and that with development it would make another Mohawk, says the Tribune.

Roger Downer, of Downer Bros., engineers and chemists of Goldfield who resided here during all the early-day sensational finds, was one of the most interested visitors and as he is superintendent of the big Orleans and is developing a large ore body there, his remarks regarding the Silver Pick were interesting. Downer said: "It looks like one of the bonanza orebodies, and I was very much interested in its position, having leased on the Red Top and extracted \$140,000 from the main Red Top vein almost opposite this new find and 200 feet farther east. The possibilities for another big orebody north and towards the Columbia mountain fault are assured, the size of the present orebody and the bulge in the stope, making for a great width, is the best evidence to any one who sees it. As development proceeds it would not surprise me to see the famous picture rock appear."

NOTICE TO WATER CUSTOMERS

All persons having gardens or lawns and desiring to take advantage of the special rate authorized by the public service commission should make application to the water company in writing on or before April 24th.

The rate is applicable between April 24th and October 24th. (Signed) WATER COMPANY OF TONOPAH. A5-10L.

Read the news hot off the pan. It's in the Bonanza, \$1 a month delivered.

DIVIDEND NOTICE

AMUSEMENTS

"THE CONCERT"—SOME COMEDY TODAY.

A splendid picturization of "The Concert," the play in which Leo Dittichstein starred for several seasons with such success, has been produced, and is booked to be shown at the Butler today. "The Concert" is a keen study of human nature and contains a fund of sparkling humor; its situations are genuinely laughable. It is the story of a middle-aged temperamental musical genius and an impressionable young wife—not his own—and their adventure as "soul mate." The musicians sensible spouse and the husband of her "rival" join hands to teach the erring pair the error of their ways by imitating them. The musician begs forgiveness of his wife and the other woman rushes into her own husband's arms, permanently cured of hero-worship. An excellent cast interprets the play.

Added to the program, a two-reel Sunshine comedy, "The Book Agent." Tomorrow—Ethel Clayton, in her latest picture, "Exit the Vamp." Coming—"Tollable David"—Watch for announcement.
